Councilman Boucher: Mr. Chair, I welcome legislation like this. I think that we are in a better position than we've probably been in quite some time. Thanks to the federal government and if we don't take action and start fixing these streets – I'm on pretty much every street in the city and this whole, it's my district, it's your district, it's this, it's the whole city. And for me to operate a business and for other people to operate a business, we're going to have to support each other in our districts when it comes to street overlays, drainage issues, and things like that. So, I'm supportive as long as the administration and everybody seems to think that we've got the money to do this within reason. I am anxious to see the report that's supposed to be coming out fairly soon. I will be coming to the council with several things especially in the Cedar Grove neighborhood. I have streets that are very similar, annexed similar times, maybe probably 40 years prior to this that are not up to standard. Mayor, you can attest to that. So, there are several streets in District D and C, and B in Cedar Grove, and yours Councilman Chairman. So, I just wanted to go on the record and say that I will be supporting this legislation and I hope that

we can, in this last year that we have together can work to make Shreveport better than it was whenever we came in.
