## **April 12 - Accident Injures Three; One Critical**

The cause of the accident is under investigation

The Shreveport Fire Department responded to a motor vehicle accident on the Terry Bradshaw Passway and the Line Ave/Ellerbe Road Exit this evening at 5:25 PM. The accident involved three vehicles—an SUV, a Pickup Truck, and 18-wheeler.

Rescue Company crews arrived on scene and found three patients in the SUV-- one adult male and two children. The adult male was trapped inside the vehicle and Rescue Crews used the "Jaws of Life" to remove the driver side door to free the patient. It appears all were restrained in the vehicle. The adult male was transported in one ambulance in critical condition to LSU Health and Science Center. The two children were also transported in one ambulance in serious condition to LSUHSC.

There was one driver in each of the other trucks who were not hurt and refused treatment and transportation to the hospital. The cause of the accident is under investigation by the Shreveport Police Department.
