FOR IMMEDIATE RELEASE

Police investigate late night shooting in west Shreveport

Shreveport Police are investigating a shooting that left one man shot and another suffering from shrapnel injuries following a late night shooting.

On April 26, 2018 just before 11:15 pm, Shreveport Police responded to University Health Hospital on reports of two individuals arriving at the emergency room suffering from gunshot injuries. On arrival officers learned that 23-year-old Ka'Vante Bryant and 27-year-old Bryan James were transported to the hospital by private vehicle driven by an unknown man. James was reportedly suffering from gunshot injuries to the right arm and back and Bryant had a minor forehead injury likely cause by glass shrapnel.

Detective with the Violent Crime Division responded to the hospital and interviewed both victims. The men advised that they were travelling on St Vincent Avenue near West 80th Street when unknown subject(s) began shooting at their vehicle. They reportedly drove to the Circle K at West 70th and Linwood Avenue to get help. That's where they say they met an unknown man that transported them to the hospital. Officers did later locate their vehicle at that location. Officers were on scene and investigating at least two reports of shots fired in that immediate area minutes prior to learning that Bryant and James were at the hospital. Neither man knew who shot at them or why they were being shot at. Detectives and patrol officers searched West 80th Street and St Vincent and the other shots fired locations near there but were unable to locate a crime scene. The investigation continues.

Police are asking anyone with any information about this incident to contact Shreveport Police Violent Crimes Investigators at 318-673-6955 or Shreveport Caddo Crime Stoppers at 318-673-7373. Crime Stoppers also has an app, P3Tips. It can be downloaded on your Android or IOS device today. Remember Crime Stoppers only wants you information, not your name!
