PRESS RELEASE

March 11, 2016

City of Shreveport to close self-service location for sandbags

The City of Shreveport will discontinue its self-service location for sandbags due to a decreasing demand.

The site at the Fire Maintenance Facility, 7300 Mansfield Road, was originally opened for citizens who requested the opportunity to fill sandbags themselves, instead of wait in line.

The City has provided more than 38,000 sandbags between the self-service location and the 24-hour operation at the Streets and Drainage Yard, 3825 Old Mansfield Road. The Old Mansfield Road site will remain open around the clock until further notice.

For updates on flooding information, go to www.shreveportla.gov, @cityshreveport on Twitter, or City of Shreveport – Mayor’s Office on Facebook.
